### BELONGING AND EMOTIONAL SECURITY TOOL (BEST)

**This introductory page is for social workers to orient themselves to using of this tool. This introductory page should not be read to the youth or parents responding to the questions.**

Research suggests that emotional security is a critical component of successful family permanence for youth in foster care. Casey Family Services is committed to permanence for each youth, including discovering or developing permanent family relationships that provide safety, emotional security and legal family membership. For youth unable to reunify with their families of origin, their closest family or family-like relationships may be with the foster parents with whom they have lived for an extended time. These relationships hold potential for legal permanence through adoption or guardianship.

Casey Family Services developed the Belonging and Emotional Security Tool (BEST) to assist social workers in exploring youth's sense of emotional security with their foster parents and foster parents' sense of claiming and attachment with youth in their care. There are two versions of the BEST – a Parent version and a Youth version. A youth's and permanent parent's responses to these statements can be used to guide meaningful permanency conversations toward a deepened, more secure and long-lasting parent-child relationship.

**Simple yes/no responses to the questions could be used.** (In the case of a two-parent family, the youth answers each set of questions twice, first related to one parent and then related to the other parent.)

**Or, a rating scale could be used.**

The following instructions apply if using a rating scale:

This questionnaire asks you about feelings you have toward this youth / this parent.

For each question, please choose a number (1 through 5) that best describes this youth / this parent.

If you 'completely agree' with a statement, you would choose 1; if you 'mostly agree', you would choose 2; if you 'neither agree nor disagree', you would chose 3; if you 'mostly disagree', you would choose 4; if you 'completely disagree', you would choose 5. There are no right or wrong answers. Just choose the number that describes how much you agree with the statement about \_\_\_\_\_.
